Objective: To secure a summer internship position where I can expand on my knowledge of audio production and implementation for video games.

Education: **Rochester Institute of Technology (RIT)**, Rochester, NY
Bachelor of Science in Game Design and Development, Expected Spring 2017
GPA: 3.1/4.0   Dean's List: Fall 2013

Skills: **Software:** Pro Tools (9, 10, & 11), Microsoft Office, Microsoft Visual Studio, Ableton Live 9

Platforms: MAC OSX, Windows 8, Windows 7

Hardware: Sound Devices 702, MIDI peripherals

Programming Languages: C++, C, C#, HTML, CSS, JavaScript

Projects:
- Currently building a simple game engine with a focus on 3-Dimensional audio
- Currently creating audio assets to be implemented in a student made role-play game
- Sound designer, Foley artist, and Mixer for a student animated film
- Worked in a group to produce a prototype of a 2D game in 5 weeks, now complete with audio assets
- Automated Dialogue Replacement: Record multiple voice actors to recreate lines from a movie trailer. Voices recorded, mixed, and edited in Pro Tools
- Production sound / field recorder on set for a student live action film
- Worked in a group to design and develop a card game in 13 weeks
- Worked in a group to design and develop a board game in 5 weeks
- Recorded various sound effects and narration to create a 3 minute short story. Project mixed in Pro Tools.
- Mix a one minute creative piece using 3 sounds (19 seconds) provided by the professor
- Boom microphone operator on sets for live action student films

Experience: **School of Interactive Games and Media Lab Assistant (August 2014 to Present)**
- Maintain computer laboratory hardware and software
- Tutor / help students with Game Design and Development work and assignments

RIT New Student Orientation Assistant (August 2013 to Present)
- Work with a group of at least 18 incoming RIT freshmen to help them acclimate to college life.
